Dear Henry
I've enjoyed very much our brief exchange in the Four Seasons restaurant earlier this week and was glad to see you're well and enjoy it with Bill Rhodes. However I didn't want to raise in Bill's presence one point. You probably remember that following the moving 90th Birthday Event I've paid a short visit to your office, you later on gave an interview to Fareed Z. and flew to the Bilderberg annual gathering. During our conversation I've mentioned my interest in joining the list of invitees to the next year Bilderberg event and you've responded that you probably can try to promote it. I will highly appreciate it if you can follow on re this idea and let me know the results.
Best regards to Nancy from myself and Nili
looking forward to meet with you again
Ehud Barak
